Instructions:

- **The test consists of two sections: Section One and Two.**
- **You have 5 minutes to prepare for the test.**
- **In preparing for Section Two, consider what to say, and how to say it — such as in what sequence, how to connect, how to emphasize, etc.**

Section One

Directions: Read aloud the part between the stars (*). (2 minutes)

O. K. , let's begin our class.

(*)Today, we're talking about smoking in the United States. Specifically, I'm going to talk about the effect that scientific research on smoking has had on our culture.

First, I need to talk about an important term, secondhand smoke. That's smoke from someone else's cigarette. When you're sitting next to someone who is smoking, you are breathing in his or her smoke. Secondhand smoke has about 60 carcinogens in it. Carcinogens are chemicals that cause cancer. Some medical researchers estimate that as many as 60,000 non-smokers die each year because of secondhand smoke.

I think that you can understand why a lot of non-smokers are angry about this. They have pushed states and cities to ban smoking in all public places. Many places in the United States now have very strict anti-smoking laws for businesses, restaurants, hotels, and bars. All air flights in the United States must be non-smoking flights. (*)

Although there are strict non-smoking laws in many cities across the United States, some regions are clearly stricter than others. The anti-smoking movement tends to be strongest on the West Coast, for example in California, and in the Northeast. Anti-smoking laws vary considerably. In some cities, you can smoke in bars, but not in restaurants. In other cities, you are not allowed to smoke in any public place.

Section Two

Speak based on a given topic: (3 minutes)

In Chapter 10, you learned about different sports to keep a person in good shape. Now what do you do to keep healthy? For example, what are your favorite outdoor activities in the summer? Explain why and how you do it.

Hello everybody. Welcome to the American Language Center. I'm Gina Richards, your academic advisor. You can all just call me Gina. I know today is your first day at our school, so you're probably a little nervous and maybe a little shy, too. So, I want to tell you right at the beginning; if you don't understand something, please ask questions. OK? And listen very carefully because we're going to give you a lot of important information — information that will make your experience here enjoyable and useful. Okay, here we go.

(*) Let me tell you about the plan for today. There are three things on your schedule. First, you will take a placement test. This test will measure your English level. You'll take a reading, grammar, and composition test. Oh, and also listening. A listening test. The whole placement test takes three hours.

Next, you will meet in small groups, with a teacher, for an orientation. This orientation meeting will be about important things you need to know, like where to buy your books, what type of classes you'll have, how to find a roommate, things like that. This is where you can ask a lot of questions.

Then, finally, this afternoon, you will take a campus tour. We'll show you the main buildings where your classrooms are; you'll see some of the sports facilities, you know, the tennis courts, the swimming pool, places like that; and you'll also visit the library and the computer lab. I think you'll be surprised how large and how beautiful our campus is. All right. Are there any questions before we begin? (*)

Section Two

Speak based on a given topic: (3 minutes)

In Chapter 8, you learned about people talking about different TV programs. Now think about children and television. Is it good for children to watch television? Why or why not? What are your views about this issue?

Section One

Directions: Read aloud the part between the stars (*). (2 minutes)

At what age does a child become an adult? The answer depends on your culture or religion. Here are a few examples.

(*) First, in some North American Indian cultures, a boy becomes a man around the age of 13. At that time, he goes into the woods alone, without food or water, for several days. When he returns safely, he becomes an adult man. Girls become adult women as soon as they are old enough to have babies, also around the age of 12 or 13.

In the Jewish religion, children spend years studying their history and religion. Then, at age 13 for boys and 12 for girls, they go through an important religious ceremony. The boys' ceremony is called a bar mitzvah and the girls' is called a bat mitzvah. From that day, they are adults, and they are responsible for their own religious development.

In Japan today, young people become legal adults at age of 20. Each year on the second Monday in January, they celebrate "Coming-of-Age Day," when all the twenty-year-olds in a town are invited to attend a special ceremony. They wear traditional clothes, listen to speeches, and visit with old friends. (*)

Finally, in the United States, the passage into adulthood takes several years. American teenagers look forward to their 16th birthday, because in most states that is the age when they can get a driver's license. The legal age of adulthood is 18, when Americans can vote, get married, and work full-time.

Section Two

Speak based on a given topic: (3 minutes)

Describe one of the restaurants that you like based on the following questions:

What is the name of the restaurant?

How expensive is the restaurant?

Who are typical customers at this restaurant (e. g. , single adults)?

What is the atmosphere in the restaurant (e. g. noisy, bright)?

What kind of food does the restaurant serve?

What does it look like inside? Is it attractively decorated?
